# MITOCHONDRIAL BIOLOGY AND GENETICS

Complesso Biologico "A. Vallisneri", Aula Magna

26 January 2015, h. 15:00, **Dr. Michal Minczuk**

MRC Mitochondrial Biology Unit, Cambridge, UK

*Regulation of mitochondrial gene expression in health and disease*

2 February 2015, h. 15:00, **Dr. Mike Murphy**

MRC Mitochondrial Biology Unit, Cambridge, UK

*How mitochondria contribute to ischemia-reperfusion injury*

24 February 2015, h. 15:00, **Dr. Alessandro Achilli**

Dept. of Chemistry, Biology and Biotechnology, University of Perugia, Italy

*Mitochondrial Genome Variation: a Female Perspective in Evolution*

2 March 2015, h. 15:00, **Dr. Alexandra Trifunovic**

Institute for Mitochondrial Disease and Aging, CECAD, University of Cologne, Germany

*Mitochondrial stress responses in control of cell autonomous and systemic changes*

This is a joint initiative between the Galileian School of higher education and the PhD Courses at the Vallisneri Biology Building (course in Biosciences, in Biomedical Sciences, and School in Biosciences and Biotechnology)
